### **Female Dancer In Gold by Sasha Compton**

What could be more perfect for the women in your life than an original piece of artwork that celebrates the joy of womanhood?

Hand painted by Amsterdam-based, British artist Sasha Compton, this piece of art is sure to liven up any room of the house. Painted on eco-friendly, premium fine art paper, each piece is also hand signed by Sasha herself.

"I am inspired by Classical themes with a contemporary colourful twist, and the unique character of imperfections," Sasha tells AllBright. "There is a lot of pressure to be perfect in today's world so when I do see something authentic, it really resonates with me."
